

**Ultrafine particle filter for air cleaner EAP300**  
Helps improve the air quality in your home

---

Designed to ensure the best performance of your Air Cleaner EAP 300. The filter indicator will signal when to replace the HEPA Filter. The replacement period will vary depending on the hours of usage, air quality and location of the unit. This filter will last approximately 1 year.

#### Produktfördelar

##### **Ultimate microscopic particle filtration**

Unique pre-charged fine particle filter media provides a highly effective barrier against microscopic dust particles and mold spores capturing particles as small as 0.3 microns<sup>1</sup>.

##### **Can help reduce allergens from indoor air**

Capable of capturing up to 99.97%<sup>2</sup> of airborne irritants to help reduce the risk of allergens from indoor air.

<sup>1</sup> Based on external tests according to standard GB/T 18801-2015 measuring filtration efficiency using particles as small as 0.3 microns.

<sup>2</sup> Based on external tests according to standard GB/T 18801-2015 measuring filtration efficiency using particles up to 0.3 microns.

**Tekniska specifikationer**

Produkttyp	Hepafilter för Luftrenare EAP 300
DistriCode	9001676528
Varumärke	Electrolux
Ursprungsland	CHINA
EAN-kod	7319599018079
Produktnummer (PNC)	900 167 652
